## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

February 1, 1953

To the School Board of Raymond:

May I present my seventh annual report of the schools of Raymond and at the same time take the opportunity to thank the members of the Board for their generous help and understanding in our attempt to solve the problems of the schools.

To the nucleus of six teachers, Mrs. Houghton, Mrs. Shaw, Mrs. Vining, Mrs. Cherms, Mr. Presby, and Mr. Callaghan were added at the beginning of school in September 1953 eight new ones, Miss Dupuis, Mrs. Waterhouse, Miss Greenwood, Mr. Hixon, Mr. Patti, Mrs. Jenkins, Mrs. Cloutier, and Mrs. Leonard. This was an addition of one more than the previous years making a total of fourteen in all. In November, Mr. Alfred Engel was elected to be the teacher of music—vocal and instrumental; and with the appointment of Mrs. Fox and Mrs. Welch replacing Mrs. Hall and Mrs. Treantefael in the school lunch program, the school got under way.

Enrollments continue to increase and with Grade one numbering 42 pupils, housing space and teacher loads are again crowding us for solution as well an increase in tuition pupils from Chester, Candia, Deerfield, Fremont, and Nottingham. In Grades 9-12 there have been 103 pupils registered so far this year; 203 pupils in Grades 1-6; and 55 pupils in Grades 7-8. As compared to last year from September to June and with still one-half year to go, these figures are about the same.

Every so often a town seems to be having its share of adversity in one or more departments. Probably it has been the schools which have been singled out for such adversity in Raymond this year. Not too long ago Mr. John Callaghan, your principal as you know, was stricken with a heart attack in the pursuance of his work and was forced to retire for a short time from his duties. When a man of his statue and understanding of children is suddenly removed from the scene of activity, certain difficulties present themselves and certain steps must be taken to continue as well as possible along the same lines set up and carried out by the stricken leader. Of course, as in every walk of life every individual is different and Mr. Callaghan has his ideas of school administration which were his alone. Therefore, it became necessary to set up a temporary program with the least possible change in order to carry on until such time as he will again be able to assume command.

This was done as soon as possible and the entire staff along with Mrs. Cynthia Lord of Raymond as a substitute has done an excellent job. Mr. Presby has been given tentative charge of

the situation and with Mrs. Lord's help along with the backing of the entire staff, the program should continue without too great a handicap.

During the summer and in keeping with past procedures, the buildings were carefully checked and certain repairs and replacements were made for the protection of the property. The installation of an adequate drainage system at the back of the gymnasium leading to the woods was installed which, in my opinion, was a major operation and has proved very much worth while.

And may I finally bring to your attention three important problems that should be solved immediately.

1. An increase of insurance on the entire plant—all buildings and furnishings. The plant and furnishings are insured for about \$115,000. This is not adequate in the face of rising costs of construction and the nature of the buildings. You as a Board have discussed this problem, but have felt that an increase of insurance would increase the Budget and be turned down by the voters. However, may I point out that \$115,000 would not build one-half the structure you now have in case of fire. Regardless of precaution, it could wipe out this amount in a very short time. I would recommend that one and one-half times this amount be added over a period of three years.

2. The outside of the building needs painting. If my memory serves me correctly, it has been painted just once in six years. Surely these buildings are worth a matter of \$400 to \$500 in six years as a precautionary measure.

3. The addition of another teacher in the elementary grades. For the past five years my reports will show that 40 pupils, or even 35 pupils, especially in the primary grades, are far too many for fair, adequate instruction. The answer has always been lack of funds. This is understandable up to a certain point. However, when the time comes that your children are receiving but 1/35th to 1/45th of the teacher's time regardless of the efficiency of the teacher, then and then alone, it becomes the parents' problem to insist upon a fair class size for the instruction of their children. Much criticism at times is heaped upon the primary teacher because she cannot give each individual the time she should when the reason is not because the teacher is not willing or that she does not have the books and materials, but that there are not enough hours in the day to handle the size of the classes. Just take a glance at the number of children in the first four grades for this year so far—Grade 1, 42 pupils; Grade 2, 38 pupils; Grade 3, 33 pupils; Grade 4, 37 pupils. Believe me, ladies and gentlemen, with such teachers as Mrs. Houghton, Mrs. Shaw, Mrs. Vining and Miss Dupuis, this is putting too great a burden not only on the teaching ingenuity of these women, but the learning power of the individual child. The blame is not on the teacher, but on the people who make adequate teaching possible. Please give this vital phase of your school careful attention.

Again may I thank everyone who still has faith in those who have been intrusted with the education of their children as well as the future of the town, state, and nation.

Respectfully submitted,

MURRAY H. WATSON.
